This is Your Journey

It's very easy to forget just how far you have come. Speakers grow and develop through new experiences, fresh challenges and useful feedback and yet seeing that growth in ourselves can be difficult. This record is designed to capture your achievements and allow you to reflect on your journey.

There are so many opportunities for learning and development in the ASC. Whatever routes or tasks you decide to take on, know that your club and your Association are here to support you. Never forget just how much progress you are making and how much further you can go in becoming a better speaker, presenter and leader.
